

DAVID PARDO

Cuenca, Azuay, Ecuador | pardodavid10@gmail.com [linkedin.com/in/david-pardo](https://www.linkedin.com/in/david-pardo) | davidpardo.dev

PROFESSIONAL SUMMARY

Senior Software Engineer with over 5 years of experience building highly scalable systems. Proven track record of rapid career progression from Web Developer to Tech Lead in high-growth environments like Rappi. Specialized in full-stack architectures (Node.js, React, TypeScript) and microservices. Experienced in leading technical teams and delivering user-centric solutions in remote, agile settings.

PROFESSIONAL EXPERIENCE

UPOINTS | Cuenca, Ecuador (Remote) **Co-founder & CTO** | March 2025 – Present *Led the technical strategy and development of a SaaS platform for digitizing loyalty programs.*

- **Designed** a modular platform using **NestJS** and **PostgreSQL**, aligned with business goals for market launch.
- **Optimized** API performance by 40% using **Redis** for caching and session management under high concurrency.
- **Designed** a responsive frontend with **React** and **Next.js**, implementing Server-Side Rendering (SSR) for SEO and speed.

RAPPI | Remote **Software Engineer / Tech Lead** | October 2021 – Present *Rapidly promoted through three roles due to technical excellence and impact on the "Super App" ecosystem.*

- **Tech Lead, Compensations Team**
 - **Lead technical decisions** and mentor developers, ensuring code quality and architectural scalability for compensation systems.
 - **Architect** and maintain critical internal tools, streamlining financial operations and reducing manual workload.
- **Backend Developer, Support Team**
 - **Built robust backend services** using **Kotlin, Go, and Node.js**, integrating **Kafka** for real-time asynchronous event processing.
 - **Optimized database queries** (PostgreSQL) to handle high-volume support ticket data efficiently.
- **Web Developer, Web Team**
 - **Developed high-performance web apps** with **React** and **Node.js**, contributing to a seamless user experience for millions of users.
 - **Implemented Micro-frontends**, decoupling teams and reducing technical debt in the main web application.
 - **Improved Web Performance** via server-side caching and service workers, boosting Core Web Vitals.

EXMERDEV | Ecuador **Lead Software Developer** | September 2020 – October 2021

- **Led the Full Stack development** of internal tools and client projects, overseeing the technical delivery.
- **Developed** a real-time platform using **WebSockets** for instant user communication.
- **Implemented** high-conversion landing pages using **Gatsby (SSG)** and React.js.
- **Collaborated** on full-stack web applications, ensuring responsive design and functionality.

FREELANCE | Loja, Ecuador **Software Developer** | April 2020 – July 2021

- **Built full-stack web applications** using the MERN stack (MongoDB, Express, React, Node.js) and PostgreSQL.
- **Deployed serverless architectures** on **Firebase** and containerized apps with **Docker**.

EDUCATION

UNIVERSIDAD TÉCNICA PARTICULAR DE LOJA (UTPL) | Loja, Ecuador **Engineer's degree, Information Technology** | 2018 – 2023

TECHNICAL SKILLS

- **Languages & Backend:** JavaScript (ES6+), TypeScript, Node.js, Express.js, NestJS, Kotlin, Go, Python.
- **Frontend:** React.js, Next.js, Gatsby, HTML5, CSS3, Micro-frontends.
- **Database & Cache:** PostgreSQL, MongoDB, Redis.
- **DevOps & Cloud:** AWS, Docker, Kafka, CI/CD, Git.
- **Languages:** Spanish (Native), English (Full Professional).
